

# NIBLS, Inc. — Master Institutional Business Plan & Ten-Year Valuation Model

**Confidential Document | Prepared for Executive Leadership & Institutional Partners**  
**Architecture:** Luxury Membership, Private NIL Valuation, and BLEI-E Exchange Licensing League **Scope:** 23 Global Team Identities Across 23 International Jurisdictions

## I. Executive Summary

NIBLS, Inc. represents a paradigm shift in global sports, finance, and biometric intelligence. By eliminating the traditional, illiquid sports franchise ownership model in favor of an **exclusive luxury membership, NIL valuation access, and BLEI-E exchange licensing framework**, NIBLS operates at the intersection of elite private equity, high-frequency financial markets (BIM-APES), and real-time athletic telemetry (Tech+Ball / B-IVI). This business plan establishes the 10-year valuation trajectory, commercial architecture, and strategic operating parameters for all 23 international team identities, scaling from an initial institutional launch to a fully realized global financial and sports-tech ecosystem.

## II. Master Ten-Year Financial Projections & Ecosystem Valuation (\$ Millions / Billions)

The macroeconomic trajectory of NIBLS is anchored by high-margin exchange trading volume, institutional licensing fees, and sovereign-tier membership tiers.

| Revenue Stream / Metric             | Year 1   | Year 3   | Year 5   | Year 10 |
|-------------------------------------|----------|----------|----------|---------|
| Team Memberships (Tier I–III)       | \$115M   | \$287M   | \$575M   | \$1.45B |
| BLEI-E Exchange Licensing           | \$345M   | \$862M   | \$1.72B  | \$4.31B |
| NIL Valuation Subscriptions         | \$86M    | \$215M   | \$431M   | \$1.08B |
| Luxury Hospitality & Paddock Access | \$57M    | \$143M   | \$287M   | \$720M  |
| Exchange Trading & Maker/Taker Fees | \$144B   | \$285B   | \$440B   | \$990B+ |
| DBBI Bond & Derivative Yields       | \$150M   | \$300M   | \$500M   | \$1.0B+ |
| TOTAL                               | \$144.7B | \$286.8B | \$443.5B | \$1.0T+ |

|                          |        |        |        |         |
|--------------------------|--------|--------|--------|---------|
| Revenue Stream / Metric  | Year 1 | Year 3 | Year 5 | Year 10 |
| <b>ECOSYSTEM REVENUE</b> |        |        |        |         |

### III. Comprehensive 23-Team Master Registry & 10-Year Valuation Targets

Each of the 23 team identities functions as a proprietary institutional node within the NIBLS network, commanding distinct membership pricing, exchange licensing volume, and 10-year enterprise valuation targets.

| #  | Country / Region   | Team / Franchise Identity | Primary Asset Class        | Year 1 Valuation Baseline | Year 5 Target Valuation | Year 10 Enterprise Valuation Target |
|----|--------------------|---------------------------|----------------------------|---------------------------|-------------------------|-------------------------------------|
| 1  | <b>Korea</b>       | Blue Sharks               | TET / PEI                  | \$180M                    | \$650M                  | \$2.4B                              |
| 2  | <b>India</b>       | APES                      | TET / Digital Assets       | \$220M                    | \$800M                  | \$3.1B                              |
| 3  | <b>Albania</b>     | Pirates                   | TET / Derivative Contracts | \$90M                     | \$320M                  | \$1.2B                              |
| 4  | <b>Italy</b>       | Stallions                 | TET / SEI                  | \$310M                    | \$1.15B                 | \$4.5B                              |
| 5  | <b>Germany</b>     | LIONS                     | TET / PEI                  | \$350M                    | \$1.3B                  | \$5.0B                              |
| 6  | <b>Spain</b>       | Knights                   | TET / Derivative Contracts | \$320M                    | \$1.2B                  | \$4.6B                              |
| 7  | <b>Mali</b>        | Panthers                  | TET / Impact Tokens        | \$75M                     | \$280M                  | \$950M                              |
| 8  | <b>Ireland</b>     | Shamrocks                 | TET / PEI                  | \$160M                    | \$580M                  | \$2.1B                              |
| 9  | <b>Australia</b>   | Wolfz                     | TET / SEI                  | \$240M                    | \$890M                  | \$3.4B                              |
| 10 | <b>Luxembourg</b>  | Twisters                  | TET / DBBI                 | \$290M                    | \$1.05B                 | \$4.1B                              |
| 11 | <b>Switzerland</b> | United Diplomats          | TET / Institutional Nodes  | \$450M                    | \$1.7B                  | \$6.8B                              |

## IV. Core Strategic Operating Divisions for Rollout

The execution of the 10-year valuation model relies on three primary operational engines:

### 1. Luxury Membership & Concierge Infrastructure

- **Access Control:** Enforced via biometric credentials and the NIBLS Glassmorphism mobile platform.
- **Hospitality Nodes:** Paddock Club lounges integrated directly into partner arenas in New York, Tokyo, Frankfurt, London, and Singapore.
- **Yield Mechanics:** Tiered annual dues (\$50K to \$1M+) ensuring high-net-worth liquidity retention without diluting equity ownership.

### 2. BLEI-E Exchange & Liquidity Engine

- **Low-Latency Order Books:** Powered by in-house hard-wired decoding and 1000Hz telemetry ingestion (B-IVI & F-IVI indices).
- **Institutional Licensing:** Annual fee structures for market makers, algorithmic trading desks, and hedge funds accessing team-specific derivatives.

### 3. NIL Valuation & Autonomous Compliance

- **Real-Time Auditing:** Continuous tracking of athlete performance metrics, eliminating valuation opacity in traditional collegiate and professional sports marketing.
- **Risk-Hedging Products:** Sponsor insurance and volatility swaps protecting corporate stakeholders against sudden athletic injury or performance drift.
